1. PURPOSE

The purpose of this report is to provide feedback on the development of a diversity policy framework for the City of Tshwane (CoT) and to request that the attached program be adopted and funded to achieve a diverse workforce.

2. STRATEGIC OBJECTIVE

The aligned City Scorecard of the CoT addresses five strategic objectives. The report is applicable to the following:

SO 5: To ensure good governance, financial viability, build capacity and optimise transformation.

3. BACKGROUND

The department: Corporate and Shared Services through Strategic Human Resources Management division saw a need to develop a diversity policy framework for the CoT. A service provider was appointed from Decision MX Consulting.

4. DISCUSSION/OVERVIEW

There is a need for the CoT to develop a policy on diversity in order to help employees deal with their differences and similarities. Diversity as an intervention will help the CoT deliver in its mandate on the improvement of service delivery.

The process started when the consultant started with the environmental analysis of the current practices, processes and systems of the CoT. The first engagement with stakeholders was the Corporate Employment Equity Forum (CEEF) and the second stakeholder was identified as City Manager Top Management. This session did not take place because there was one representative from the Leadership Academy who attended. Two departments submitted their apologies for non attendance. The third stakeholder which was engaged was with people with disabilities forum (PWDF)

During the MMC Top Management meeting held on 26 May 2009 it was resolved that the consultant must present to this group of stakeholders. An arrangement was made to this effect.

Communication was issued to departments to indicate their availability for such engagements and departments responded to the call.

A separate and final arrangement was done for the Mayoral Committee members to give them an opportunity to engage with the consultant on a one to one basis to solicit their inputs so as to finalise this process. A process which was finalised
