

**LOCAL AUTHORITY NOTICE 1412 OF 2016**

**CITY OF TSHWANE**

**WITHDRAWAL AND DETERMINATION OF THE SUPPLY OF ELECTRICITY  
PAYABLE TO THE CITY OF TSHWANE**

The City of Tshwane hereby gives notice that in terms of section 75A(3) of the Local Government: Municipal Systems Act, 2000 (Act 32 of 2000), as amended, that a resolution was passed by Council on 30 June 2016 for the amendment of tariffs in respect of the supply of Electricity Part 1, payable to the Municipality in accordance with the said Act, 2000 as was published under Local Authority Notice 1042 in Provincial Gazette No. 230, Vol. 22 of 29 June 2016. The general purport of the amendment is the withdrawal of Part I (Energy, Demand and Fixed Demand Charges) of Schedule 1 as was published in the said Local Authority Notice by substituting the same with the tariffs and charges as reflected in Schedule 1 hereunder which shall be applicable for the period 1 July 2016 to 30 June 2017. The said amended tariffs and charges shall remain effective until any subsequent amendment or substitution is approved by the Council

**JASON NGOBENI  
CITY MANAGER**

31 AUGUST 2016  
(Notice 244 of 2016)

**SCHEDULE 1**

**SUPPLY OF ELECTRICITY**

**PART I: ENERGY, DEMAND AND FIXED DEMAND CHARGES**

	With effect from 1 July 2016 to 30 June 2017
<p><b>A. DOMESTIC TARIFF SCALES</b></p> <p><b>FREE BASIC ELECTRICITY</b></p> <p>For indigent consumers officially registered at the City of Tshwane Metropolitan Municipality the first 100 kWh consumed per thirty-day period per residential unit since the previous meter reading will be issued free of charge.</p> <p><b>1. DOMESTIC SINGLE- AND THREE-PHASE: CONVENTIONAL &amp; PREPAID</b></p> <p>Subject to any additional charges contained in PART II of the Tariff and to the exceptions set out in group (x), this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage to the following groups of consumers with a main circuit-breaker size of not more than 80 amperes per phase in the case of a single-phase, two-phase or three-phase connection, provided that where a three-phase connection is supplied to the premises and the rating of the consumer's main circuit breaker is more than 80 amperes per phase - excluding bulk domestic complexes, the Executive Director: Energy and Electricity may determine that the Low Voltage Three-phase Demand Scale will apply (two-phase connections are not available for new connections and the tariff is only applicable to existing two-phase connections)</p>	

		With effect from 1 July 2016 to 30 June 2017
	<ul style="list-style-type: none"> <li>(a) A residential unit</li> <li>(ii) A boarding house</li> <li>(iii) A flat</li> <li>(iv) A non-profitable nursing home</li> <li>(v) A charitable institution/home</li> <li>(vi) A hostel</li> <li>(vii) A building used exclusively for public worship</li> <li>(viii) A club, other than a club licensed under any liquor act</li> <li>(ix) A pumping plant where the water pumped is used exclusively for domestic purposes on premises receiving a supply under this scale of the tariff</li> <li>(x) A building or separate section of a building comprising a number of the foregoing groups or other units used exclusively for residential purposes, the consumption of which is separately metered by the municipality for the determination of charges due under this scale</li> <li>(xi) Classes (iv), (v) and (vii) situated outside legally established townships</li> <li>(xii) Premises for which a written request was submitted to and approved by Executive Director: Energy and Electricity.</li> </ul>	
<b>1.1</b>	<p><b>DOMESTIC STANDARD SUPPLY SINGLE- AND THREE-PHASE: CONVENTIONAL AND PREPAID</b></p> <p>For a connection with a conventional meter, energy consumed per thirty day period since the previous meter reading is charged per month or part of a month. Prepaid energy purchases are charged per calendar month.</p> <p>The energy tariff charge/kWh- inclusive of environmental levy of 5.5c/kWh is the following:</p>	
1.1.1	1 - 100 kWh	130,32c
1.1.2	101 - 400 kWh	152,50c
1.1.3	401 - 650 kWh	166,10c
1.1.4	>650 kWh	179,00c
<b>1.2</b>	<p><b>DOMESTIC THREE PHASE DEMAND SUPPLY:</b></p> <p>For residences where a three-phase connection is supplied to the premises and the rating of the consumer's main circuit breaker is more than 80 amperes per phase - excluding bulk domestic complexes- the Low Voltage Three-phase Demand Scale will apply.</p>	
1.2.1	A fixed monthly charge, whether or not electricity is consumed, per metering point	R2 192.00
1.2.2	A demand charge per KVA of half-hourly maximum demand: Provided that the amount payable in respect of the maximum demand in any month will not be less than the greater of:	R157.00
1.2.2.1	The prevailing tariff multiplied by 60% of the highest demand recorded on the meter during the preceding twelve months, and	
1.2.2.2	The prevailing tariff multiplied by 60% of the minimum required demand for the tariff scale in this instance 50kVA, thus 60% of 50 = 30kVA where the metered period exceeds the normal 1 month (approximately 30 days)	

		With effect from 1 July 2016 to 30 June 2017
	Where the metered period exceeds the normal 1 month (approximately 30 days) period, demand will be charged per 30 days period on the actual metered demand where available. Consumers with meters that do not store meter history will be charged at 60% of the highest demand recorded during the preceding twelve months	
1.2.3	An energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed since the previous meter reading, per kWh	100,00c
1.3	<b>DOMESTIC THREE PHASE DEMAND SUPPLY: CONVENTIONAL AND PREPAID</b>  Currently not available. Time-of-use tariffs will be made available to standard domestic customers when the automated meter reading system with time-of-use capabilities has been implemented and commissioned.	
2.	<b>DOMESTIC BULK SUPPLY</b>  Subject to any additional charges contained in PART II of the Tariff, this scale will apply to domestic complexes and gated domestic communities situated within legally established townships (unless explicitly otherwise determined by the Executive Director: Energy and Electricity) within and outside the municipal boundaries where electricity is supplied in bulk via a single connection at low voltage or medium voltage, to the following classes of consumers.  A body corporate or the authorised reselling agent of a bulk residential complex that purchases electricity only for resale to residential dwelling-units on the same premises at the prescribed domestic reselling tariffs of the municipality and where such consumption is determined by means of conventional or prepaid sub-meters.  Residential complexes include blocks of flats, including separate units in terms of the sectional Titles Act, 1971 (Act 66 of 1971), and the sectional Titles Act, 1986 (Act 95 of 1986), but exclude premises with only a second dwelling unit.	
2.1	<b>DOMESTIC BULK STANDARD SUPPLY</b>  The following charges will be payable per month or part of a month:	
2.1.1	A fixed monthly charge, whether or not electricity is consumed per metering point	R494.00
2.1.2	for all kWh consumed since the previous meter reading, per kWh inclusive of 5.5 c/kWh environmental levy:	130,00c
2.2	<b>DOMESTIC BULK TIME-OF-USE SUPPLY</b>  Due to the automated meter reading system not being fully implemented and commissioned for Time-of-use metering, the domestic bulk time-of-use will not be available for an interim period. No new applications for this scale will be considered until further notice.  The following charges applicable to standard Domestic Bulk supply will be charged to customers previously on this tariff scale:	
2.2.1	A fixed monthly charge, whether or not electricity is consumed per metering point	R494.00

		With effect from 1 July 2016 to 30 June 2017
2.2.2	An active energy charge for all kWh consumed during peak periods since the previous meter reading, per kWh inclusive of 5.5 c/kWh environmental levy	180.70c
2.2.3	An active energy charge for all kWh consumed during standard periods since the previous meter reading, per kWh inclusive of 5.5 c/kWh environmental levy	122.00c
2.2.4	An active energy charge for all kWh consumed during off-peak periods since the previous meter reading, per kWh inclusive of 5.5 c/kWh environmental levy	122.00c
NOTES:		
2.2.4.1	The defined daily time of use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the Municipality (Paragraph G).	
2.2.4.2	The Executive Director: Energy and Electricity may determine to impose a conversion surcharge to existing customers converting to a time of use tariff, where an impact study indicates a financial saving due to the conversion.	
2.2.4.3	The Executive Director: Energy and Electricity may impose a specific minimum load requirement for qualification for this scale.	
2.2.4.4	The Executive Director: Energy and Electricity has the authority to reverse the tariff of a complex without notice to standard supply where the resellers fail to accommodate clients in the complex requesting the approved Domestic Time-use tariffs.	
<b>RESELLING TO END USERS IN DOMESTIC COMPLEXES: REFER TO PARAGRAPH F BELOW</b>		
<b>3. LIFELINE: PREPAID</b>		
Subject to any additional charges contained in all PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage to the following groups of consumers with a main circuit-breaker size of not more than 20 amperes in the case of a single-phase connection, where a life-line subsidized connection has been taken that is metered by a prepaid meter.		
(b) A residential unit		
(i) A flat		
For all kWh purchased per calendar month, per kWh		
3.1	The first 100 kWh, per kWh inclusive of 5.5 c/kWh environmental levy:	130,00
3.2	101 - 400 kWh, per kWh inclusive of 5.5 c/kWh environmental levy:	149,52
3.3	401 - 650 kWh, per kWh inclusive of 5.5 c/kWh environmental levy:	164,00
3.4	>650 kWh, per kWh inclusive of 5.5 c/kWh environmental levy:	175,00
<b>4. AGRICULTURAL HOLDINGS AND FARM LAND: CONVENTIONAL OR PREPAID</b>		
Subject to any additional charges contained in PART II of the tariff and excluding premises falling under group (x) of the Domestic Single- and Three-phase: Conventional or prepaid, lifeline: Prepaid or under the Low voltage Three-phase Demand Scale, this scale will apply to premises situated outside legally established townships within or outside the municipal boundaries, and to which electricity is supplied or made available at low voltage, with a main circuit-breaker size of not more than 80 amperes per phase in the case of a single-phase or three-phase connection.		

	With effect from 1 July 2016 to 30 June 2017
<p>For a connection with a <b>conventional meter</b> the following charges will be payable per month or part of a month:</p> <p>An energy charge for each kWh consumed since the previous meter reading, per kWh inclusive of 5.5 c/kWh environmental levy</p>	161.50c
<p>For a connection with a <b>prepaid meter</b>, the following charges will be payable per calendar month or part of a month.</p> <p>An energy for each kWh inclusive of 5.5 c/kWh environmental levy</p>	161.50c
<p><b>B. NON DOMESTIC/BUSINESS TARIFFS SCALES</b></p> <p>In accordance with policy positions 43 of the Electricity Pricing Policy No. 1398-</p> <p>(1) Non-licensed traders of electricity shall provide the electricity at terms, tariffs and services not less favourably than that provided by the licensed distributor in the area.</p> <p>In accordance to the Electricity Regulations Act, 2006 (Act 4 of 2006) the power and duties of the licensee are-</p> <p>(2) A licensee may not discriminate between customers or classes of customers regarding access, tariffs, prices and conditions of service, except for objectively justifiable and conditions of a service, except for objectively justifiable and identifiable differences approved by Regulator.</p>	
<p><b>5. NON-DOMESTIC SINGLE-PHASE: CONVENTIONAL</b></p> <p>Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage to the following groups of consumers, with a main circuit breaker size of not more than 80 amperes in the case of a single-phase connection:</p> <p>(i) A shop, store or business                  (ii) An office block                  (iii) A hotel licensed under the Liquor Act                  (iv) A bar                  (v) A cafe, tearoom or restaurant                  (vi) A combined shop and tearoom                  (vii) A public hall                  (viii) A club licensed under the Liquor Act                  (ix) An industrial, manufacturing concern or service industry                  (x) An educational institution, excluding a hostel, if metered separately                  (xi) A building or section of a building comprising a number of the above classes                  (xii) All consumers not defined under other scales of the tariff</p>	
<p><b>5.1 Fixed monthly charge</b></p> <p>An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:</p> <p>Where the rating of the circuit breaker is:</p>	

		With effect from 1 July 2016 to 30 June 2017
5.1.1	60 amperes or less	R841.00
5.1.2	More than 60 amperes but not more than 80 amperes:	R1 102,00
<p><b>NOTES</b></p> <p>For the purpose of this item "circuit breaker" means a double-pole circuit breaker or a neutral switch/circuit breaker combination.</p>		
5.2	Energy charge which include the environmental levy of 5,5 c/kWh	139.20c
<p><b>6. NON-DOMESTIC SINGLE-PHASE: PREPAID</b></p> <p>Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit-breaker size of not more than 80 amperes in the case of a single-phase connection, to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single phase: Conventional scale</p>		
6.1	Fixed monthly charge	
<p>An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:</p> <p>Where the rating of the circuit breaker is:</p>		
6.1.1	60 amperes or less	R801,00
6.1.2	More than 60 amperes but not more than 80 amperes	R1 070.00
6.2	Energy charge	
<p>An energy charge which include the environmental levy of 5.5c/kWh for all kWh purchased, per kWh</p>		
<p><b>NOTES</b></p>		
6.2.1	For the purpose of this item "circuit breaker" means a double-pole circuit breaker or neutral switch/circuit breaker combination.	
6.2.2	Fixed charges are payable monthly in advance and will be recovered by the pre-paid vending system. These charges will be allocated to the appropriate account and energy units allocated for the balance of the purchase amount. Should a customer refrain from purchasing energy in any calendar month, the total fixed amount for the inactive purchase months plus the charge for the current month will be automatically recovered before any energy units will be allocated by the vending system	
<p><b>7. NON-DOMESTIC THREE-PHASE: CONVENTIONAL</b></p> <p>Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit-breaker size of not more than 150 amperes per phase in the case of an existing three-phase connection (new connections see NOTES below), to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single-phase: Conventional scale.</p>		

		With effect from 1 July 2016 to 30 June 2017
7.1	<p>Fixed monthly charge</p> <p>An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:</p> <p>Where the rating of the circuit breaker is:</p>	
7.1.1	60 amperes or less	R2 560,00
7.1.2	More than 60 amperes but not more than 80 amperes	R3 911,00
7.1.3	More than 80 amperes but not more than 100 amperes	R5 472,00
7.1.4	More than 100 amperes but not more than 125 amperes	R6 873,00
7.1.5	More than 125 amperes but not more than 150 amperes	R8 357,00
7.2	<p>Energy charge which include the environmental levy of 5,5 c/kWh, for all kWh consumed since the previous meter reading, per kWh</p>	139.20c
	NOTES	
7.2.1	For the purpose of this item, "circuit breaker" means a triple-pole circuit breaker.	
7.2.2	Since 1 July 2008 no new non-domestic three phase straight connections above 100A are available. These connections are treated as Low voltage demand connections.	
<b>8.</b>	<b>NON-DOMESTIC THREE-PHASE: PREPAID</b>	
	<p>Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit-breaker size of not more 80 amperes per phase in the case of a three-phase connection, to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single Phase: Conventional scale.</p>	
8.1	<p>Fixed monthly charge</p> <p>An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale.</p> <p>Where the rating of the circuit breaker is:</p>	
8.1.1	60 amperes or less	R2 428,00
8.1.2	More than 60 amperes but not more 80 amperes	R3 675,00
8.2	<p>Energy charge which include the environmental levy of 5,5 c/kWh, an energy charge for all kWh purchased, per kWh</p>	138.60c
	NOTES	
8.2.1	For the purpose of this item "circuit breaker" means a triple-pole circuit breaker.	

		With effect from 1 July 2016 to 30 June 2017
8.2.2	Fixed charges are payable monthly in advance and will be recovered by the pre-paid vending system. These charges will be allocated to the appropriate account and energy units allocated for the balance of the purchase amount. Should a customer refrain from purchasing energy in any calendar month the total fixed amount for the inactive purchase months plus the charge for the next month in advance will be automatically recovered before any energy units will be allocated by the vending system.	
<b>C. BULK BUSINESS / NON DOMESTIC DEMAND SCALES</b>		
Subject to any additional charges contained in Part II of the tariffs, this scale will apply to the premises situated within and outside the municipal boundaries for electricity supplied or made available at low voltage, with an annual average metered load of more than 50 kVA.		
<b>9. LOW VOLTAGE THREE-PHASE DEMAND SCALE</b>		
Subject to any additional charges contained in PART II of the tariff, this scale will apply to the premises situated within and outside the municipal boundaries for the electricity supplied or made available at low voltage, with an annual average metered load of more than 50 kVA-implying installed breaker of greater than 70 A three-phase, but limited to a maximum of 800 A – to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single-phase: Conventional scale and the groups of domestic consumers with a main circuit-breaker size of more than 80 amperes per phase listed in item (i) up to and including (xii) - excluding bulk domestic complexes and gated domestic communities with a single bulk connection-in the preamble to the Domestic Scale: Single and Three phase. In the event where the actual average annual demand is below 50 kVA, the Executive Director: Energy and Electricity has the authority to convert the consumer to the applicable tariff upon downgrading to the applicable breaker.		
NOTE:		
This tariff category is no longer available for new connections. In order to comply with Regulation Act 2006 all new connections in this category will be metered via a time-of-use smart meter based on the approved tariffs in paragraph 10 below.		
The following charges will be payable per month or part of a month:		
9.1	A fixed monthly charge, whether or not electricity is consumed, per metering point:	R2 192,00
9.2	A demand charge per kVA of half-hourly maximum demand: Provided that the amount payable in respect of the maximum demand in any month will not be less than the greater of:	R157,00
9.2.1	The prevailing tariff multiplied by 60% of the highest demand recorded on the meter during the preceding twelve months, and	
9.2.2	The prevailing tariff multiplied by 60% of the minimum required demand for the tariff scale, in this instance 50 kVA, thus 60% of 50 = 30 kVA.	

	Where the metered period exceeds the normal 1 month (approximately 30 days) period, demand will be charged per 30 days period on the actual metered demand where available. Consumers with meters that do not store meter history will be charged at 60% of the highest demand recorded during the preceding twelve months.	
9.3	An energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed since the previous meter reading, per kWh	100,00c
10.	<b>LOW VOLTAGE THREE-PHASE DEMAND SCALE:</b> <b>TIME OF USE</b>  Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within and outside the municipal boundaries for electricity supplied or made available at low voltage, with an annual average <b>metered load of more than 50 kVA</b> and load shifting to defined time periods can be arranged, to the groups of consumers listed in item (i) up to and including (xii) - excluding bulk domestic complexes and gated domestic communities with a single bulk connection in the preamble to the Non-domestic Single-phase: Conventional Scale. In the event where the actual average annual demand is below 50 kVA, the Executive Director: Energy and Electricity has the authority to convert the consumer to the applicable tariff.  The following charges will be payable per month or part of a month:	
10.1	A fixed monthly charge, whether or not electricity is consumed, per metering point	R2 183,00
10.2	A demand charge per kVA of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays	R157,00
10.3	Active energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed during peak periods since previous meter reading, per kWh, in High demand season (June - August) Low demand season (September - May)	314.00c 129.00c
10.4	An active energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed during standard periods since previous meter reading, per kWh High demand season (June - August) Low demand season (September - May)	120.30c 81.20c
10.5	An active energy charge which include the environmental levy of 5,5 c/kWh, for all kWh consumed during off-peak periods since previous meter reading, per kWh High demand season (June - August) Low demand season (September - May)	68.89c 57.50c
	<b>NOTES</b>	
10.5.1	The defined daily time of use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the Municipality (Paragraph G) – excluding the application of public holidays. Meters will be set up according to the actual day of the week.	

10.5.2 The Executive Director: Energy and Electricity may determine to impose a conversation surcharge to existing customers converting to a time of use tariff, where an impact study indicates a financial saving due to the conversation.

10.5.3 The Executive Director: Energy and Electricity may impose a specific minimum load requirement for qualification for this tariff scale.

#### 11. 11 kV SUPPLY SCALE

Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises – excluding bulk domestic complexes – situated within or outside the municipal boundaries where electrical power is supplied at 11 000 V.

Unless the Executive Director: Energy and Electricity determines otherwise, this scale will only be available for premises with an average metered load of more than 200 kVA.

In the event where the actual average annual demand is below 200 kVA, the Executive Director: Energy and Electricity has the authority to convert the consumer to the applicable tariff.

Due to legislation requiring Time-of-use metering for all bulk consumers, all standard 11 kV connections will be phased out and be replaced with Time-of-use metering. No new standard 11 kV connections will be given.

The following charges will be payable per month or part of a month:

11.1	A fixed monthly charge, whether or not electricity is consumed, per metering point	R1 875,00
11.2	A demand charge per kVA of half-hourly maximum demand: Provided that the amount payable in respect of the maximum demand in any month will not be less than the greater of:	R153,00
11.2.1	The prevailing tariff multiplied by 70% of the highest demand recorded on the meter during the preceding twelve months, and	
11.2.2	The prevailing tariff multiplied by 70% of the minimum required demand for the tariff scale, in this instance 200 kVA, thus 70% of 200 = 140 kVA. Where the metered period exceeds the normal 1 month (approximately 30 days) period, demand will be charged per 30 days period on the actual metered demand where that do not store meter history will be charged at 70% of the highest demand recorded during the preceding twelve months.	
11.3	An energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed since the previous meter reading, per kWh	95,80c
	Provided that in the case of a consumer who is not supplied with Electricity under the Off-peak Supply Scale, the said Energy charge will be reduced, if the average daily consumption in any month is equal to or greater than 13 kWh per kVA of the maximum demand in that month, to	94,70c

#### NOTE:

This tariff category is no longer available for new connections.

In order to comply with Regulation Act 2006 all new connections in this category will be metered via a time-of-use smart meter based on the approved tariffs in paragraph 12 below.

**12. 11 kV SUPPLY SCALE: TIME OF USE**

Subject to any additional charges contained in PART II of the tariff, this scale will apply to premises – **excluding bulk domestic complexes** – situated within or outside the municipal boundaries where electrical power is supplied at 11 000 V and load shifting to defined time periods can be arranged.

The following charges will be payable per month or part of a month:

12.1	A fixed monthly charge, whether or not electricity is consumed, per metering point	R1 886,00
12.2	A demand charge per kVA of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays	R156,60
12.3	Active energy charge which include the environmental levy of 5,5 c/kWh consumed during peak periods since previous meter reading, per kWh, in High demand season (June - August) Low demand season (September – May)	313.60c 120.10c
12.4	An active energy charge which includes the environmental levy of 5,5 c/kWh for all kWh consumed during standard periods since previous meter reading, per kWh High demand season (June - August) Low demand season (September - May)	114.55c 74.20c
12.5	An active energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed during off-peak periods since previous meter reading, per kWh High demand season (June - August) Low demand season (September - May)	61.00c 52.50c

**NOTES**

- 12.5.1 The defined daily time of use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the Municipality (Paragraph G) – excluding the application of public holidays. Meters will be set up according to the actual day of the week.
- 12.5.2 The Executive Director: Energy and Electricity may determine to impose a conversion surcharge to existing customers converting to a time of use tariff, where an impact study indicates a financial saving due to the conversion.
- 12.5.3 The Executive Director: Energy and Electricity may impose a specific minimum load requirement for qualification for this tariff scale.

**13. 11 kV SUPPLY SCALE: MADIBENG**

Subject to any additional charges contained in PART II of the Tariff, this scale will apply to the Local Municipality of Madibeng: Hartbeespoort Administrative Unit as per the current agreement.

The following charges will be payable per month or part of a month:

- 13.1 The amount calculated as per the agreement, based on the current Eskom tariff that may be applicable to the Municipality for the specific in-feed point relating to the area and/or the agreement.

- 13.2 A surcharge of 5% on the sum of the net amount calculated in terms of sub-item (a)

**D. INDUSTRIAL SCALES**

**14. 132 kV SUPPLY SCALE: TIME OF USE**

Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises within or outside the municipal boundaries where electrical power is Supplied at 132 000 V.

Unless the Executive Director: Energy and Electricity determines otherwise, this scale will only be available for premises with an average annual metered load of more than 10 000 kVA or more. In the event where the actual average annual demand is below 10 000 kVA, the Executive Director: Energy and Electricity has the authority to convert the consumer to the applicable tariff.

The following charges will be payable per month or part of a month:

14.1	A fixed monthly charge whether or not electricity is consumed, per metering point	R1 581,00
14.2	A demand charge of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays per kVA.	R104,00
14.3	An energy charge which includes the environmental levy of 5,5 c/kWh for all kWh consumed during peak periods since the previous meter reading, per kWh. High demand season (June - August) Low demand season (September - May)	311.40c 114.50c
14.4	An active energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed during standard periods since the precious meter reading, per kWh High demand season (June - August) Low demand season (September - May)	106.90c 70.35c
14.5	An active energy charge which include the environmental levy of 5,5 c/kWh for all kWh consumed during off-peak periods since the previous meter reading, per kWh High demand season (June - August) Low demand season (September - May)	58.10c 50.10c

**NOTES**

- 14.5.1 The defined daily time of use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the Municipality (Paragraph G).
- 14.5.2 The Executive Director: Energy and Electricity may determine to impose a conversion surcharge to existing customers converting to a time of use tariff, where an impact study indicates a financial saving due to the conversion.

**15. 132 kV SUPPLY SCALE: WIND TUNNEL**

Subject to any additional charges contained in PART II of the Tariff, the Executive Director: Energy and Electricity retains the right to determine at his discretion, by agreement, the following charges as far as power consumption by the CSIR's Medium Speed Wind Tunnel outside the peak time of Eskom's applicable approved bulk time of use tariff, is concerned:

- |      |  |           |
|------|--|-----------|
| 15.1 | A fixed monthly charge, whether or not electricity is consumed, per metering point   | R1 581,00 |
| 15.2 | An energy charge which include the environmental levy of 5,5c/kWh for all kWh consumed since the previous meter reading, per kWh | 236.60c   |

Should the Wind tunnel's maximum demand contribute to the Municipality's maximum demand, the tariff will revert to as per the agreement

**16. 275 kV SUPPLY SCALE: TIME OF USE**

Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises within or outside the municipal boundaries where electrical power is supplied at 275 kV.

Unless the Executive Director: Energy and Electricity determines otherwise, this scale will only be available for premises with an average metered load of 30 000 kVA or more. In the event where the actual average annual demand is below 30 000 kVA, the Executive Director: Energy and Electricity has the authority to convert the consumer to the applicable tariff.

The following charges will be payable per month or part of a month:

- |      |   |
|------|---|
| 16.1 | The current Eskom Megaflex tariff, excluding the monthly rental that may be applicable to the Municipality. |
| 16.2 | A surcharge of 3% on the sum of the net amount calculated in terms of sub-item (a)                          |

**17. OFF-PEAK SUPPLY SCALE**

Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within and outside the municipal boundaries.

The following provisions will be applicable to a supply of electricity supplied or made available during the off-peak periods during the periods as determined by the Executive Director: Energy and Electricity, to premises receiving a standard supply under either the 132 kV Supply scale or the 11 kV Supply Scale or the Low voltage Three-phase Demand Scale provided that the consumer applies in writing for such off-peak supply which will be subject to the following restrictions:

- |      |  |
|------|--|
| 17.1 | The consumer's electrical installation will be arranged in such a way that the off-peak supply can only be used during the times set out in this preamble. |
|------|--|

- 17.2 The consumer will accept the limitation of such a supply to the capacity of the existing mains and equipment, or, in the case of a new or increased supply, to the capacity of the mains and equipment provided by the municipality, by mutual agreement between the Municipality and the consumer, and any other limitations with regard to the maximum demand or nature of the load which the Executive Director: Energy and Electricity may impose.
- 17.3 The consumer will compensate the municipality for the provision and installation of the necessary measuring equipment.
- 17.4 Should the application be approved by the Executive Director: Energy and Electricity, and the off-peak supply be provided or made available, the following charges will be payable:
- 17.4.1 A demand charge at 0% per month of the tariff per kVA determined in terms of the tariff scale under which the standard supply is provided to the premises, applied to the value by which the half-hourly maximum demand during the off-peak period exceeds the half-hourly maximum demand applicable to the standard supply.
- 17.4.2 An energy charge for all kWh consumed during the off-peak period since the previous meter reading at the tariff per kWh, determined in terms of the tariff scale under which the standard supply is made available to the premises.

DEFINED ON-OFF PEAK PERIODS (as determined by the Executive Director: Energy and Electricity)

Peak Weekdays (06:00 to 22:00)  
 Off-peak Monday to Thursday (22:00 to 06:00)  
 Friday and Weekends (Friday 20:00 to 06:00 Monday)

**NOTE**

In the event of abnormal circumstances, load demand and combinations of premises, the Municipality may provide one supply point at a specific voltage to the premises, and the appropriate scale of the Tariff relating to specific voltage will then be applicable to such premise.

**18. GREEN TARIFF**

Subject to the availability of green energy, and subject to any additional changes contained in PART II of the Tariff, a green tariff scale based on the time-of-use tariff scales of the City of Tshwane will be available to consumers that qualify for Time-of-use scales and will apply to premises situated within or outside the municipal boundaries.

The following charges will be payable per month or part of a month in respect of the 11 kV time of use Green tariff supply scale:

- 18.1 The current Tshwane time-of-use tariff scale for the appropriate supply, and
- 18.2 A surcharge as determined from time-to-time by the Executive Director: Energy and Electricity based on the purchase cost of green electricity and the Draft Market Rules for voluntary green power trading as compiled by the Department of Mineral and Energy affairs.

**19. WHEELING TARIFF**

Currently the City of Tshwane does not have any tariff structure on wheeling electricity through its network. The Energy and Electricity Division together with the Sustainability Department are working on the wheeling tariff structure, and once it is finalised, it will be submitted to Council for approval.

**ELECTRICITY RESELLERS**

**ELECTRICITY RESELLER DEFINITION**

A reseller is defined by the Energy Regulator (NERSA) as a non-licensed trader of electricity (a person, corporation or organisation), that supplies electricity to dwellings in high density housing complex; residential flat building, residential gated sectional title units and/or free stands in a complex, shopping mall or shopping complex, commercial building (including offices) and has the ability to meter its customers and provide a bill clearly stating the kilowatt hours consumed, the tariff per kilowatt hour and the total amount charged.

In case of the City of Tshwane the above definition of a reseller will apply and therefore the following tariffs will apply to all resellers for both domestic and commercial.

**E. RESELLERS' PURCHASE TARIFFS AT BULK POINTS**

The City is currently in the process of formulating policy for registration of resellers. After implementation of this policy, resellers officially registered with the City of Tshwane, qualify for and will, upon registration be transferred to the bulk points resellers' purchase tariff categories listed below.

**20. DOMESTIC COMPLEXES**

Subject to any additional charges contained in PART II of the Tariff, this scale will apply to domestic complexes and gated domestic communities situated within legally established townships (unless explicitly otherwise determined by the Executive Director: Energy and Electricity) within and outside the municipal boundaries where electricity is supplied in bulk via a single connection at low voltage or medium voltage, to the following classes of consumers:

A Body Corporate or the authorised reselling agent of a bulk residential complex that purchases electricity only for resale to residential dwelling-units on the same premises at the prescribed domestic tariffs of the Municipality and where such consumption is determined by means of conventional or pre-paid sub-meters. Residential complexes include blocks of flats, including separate units in terms of the Sectional Titles Act, 1971 (Act 66 of 1971), and the Sectional Titles Act, 1986 (Act 95 of 1986), but exclude premises with only a second dwelling-unit.

The following charges will be payable per month or part of a month:

20.1	A fixed monthly charge, whether or not electricity is consumed, per metering point	R1 094,00
20.2	For all kWh consumed since the previous meter reading, per kWh inclusive of 5,5 c/kWh environmental levy the following tariffs shall apply:	130.00c

**21. NON-DOMESTIC / BUSINESS COMPLEXES:**

In accordance with Policy Position 43 of the Electricity Pricing Policy No. 1398 -

- (1) Non-licensed traders of electricity shall provide the electricity at terms, tariffs and services not less favourably than that provided by the licensed distributor in the area.

In accordance to the Electricity Regulation Act, 2006 (Act 4 of 2006) the power and duties of the licensee are -

- (2) A licensee may not discriminate between customers or classes of customers regarding access, tariffs, prices and conditions of service, except for objectively justifiable and identifiable differences approved by the Regulator.

Resellers must charge the municipal approved rates only. A penalty fee will be applied to resellers who do not comply.

**21.1 NON-DOMESTIC SINGLE-PHASE: CONVENTIONAL**

Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage to the groups of consumers listed in paragraph 5 in item (i) up to and including (xii) in the preamble to the Non-domestic Single phase: Conventional scale above, with a main circuit breaker size of not more than 80 amperes in the case of a single-phase connection:

**21.1.1 Fixed monthly charge**

An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:

Where the rating of the circuit breaker is:

21.1.1.1 60 amperes or less	R841,00
21.1.1.2 More than 60 amperes but not more than 80 amperes:	R1 102,00
21.1.2 Energy charge which include the environmental levy of 5.5 c/kWh	130.00c

**21.2 NON-DOMESTIC SINGLE-PHASE: PREPAID**

Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit-breaker size of not more than 80 amperes in the case of a single-phase connection, to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single phase: Conventional scale

**21.2.1 Fixed monthly charge**

An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:

Where the rating of the circuit breaker is:

21.2.1.1 60 amperes or less	R801,00
21.2.1.2 More than 60 amperes but not more than 80 amperes	R1 070,00

21.2.2	Energy charge	
	An energy charge which include the environmental levy of 5,5 c/kWh for all kWh purchased, per kWh	130.00c
<b>21.3</b>	<b>NON-DOMESTIC THREE-PHASE: CONVENTIONAL</b>	
	Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit-breaker size of not more than 150 amperes per phase in the case of an existing three-phase connection, to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single-phase: Conventional scale.	
21.3.1	Fixed monthly charge	
	An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:	
	Where the rating of the circuit breaker is:	
21.3.1.1	60 amperes or less	R2 560,00
21.3.1.2	More than 60 amperes but not more than 80 amperes	R3 911,00
21.3.1.3	More than 80 amperes but not more than 100 amperes	R5 472,00
21.3.1.4	More than 100 amperes but not more than 125 amperes	R6 873,00
21.3.1.5	More than 125 amperes but not more than 150 amperes	R8 357,00
21.3.2	Energy charge which include the environmental levy of 5,5 c/kWh, for all kWh consumed since the previous meter reading, per kWh	130.00c
<b>21.4</b>	<b>NON-DOMESTIC THREE-PHASE: PREPAID</b>	
	Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within legally established townships where electrical power is supplied at low voltage, with a main circuit-breaker size of not more 80 amperes per phase in the case of a three-phase connection, to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single Phase: Conventional scale.	
21.4.1	Fixed monthly charge	
	An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale.	
	Where the rating of the circuit breaker is:	
21.4.1.1	60 amperes or less	R2 428,00
21.4.1.2	More than 60 amperes but not more 80 amperes	R3 675,00
21.4.2	Energy charge which include the environmental levy of 5,5 c/kWh, an energy charge for all kWh purchased, per kWh	130.00c

**21.5 LOW VOLTAGE THREE-PHASE DEMAND SCALE**

Subject to any additional charges contained in PART II of the tariff, this scale will apply to the premises situated within and outside the municipal boundaries for the electricity supplied or made available at low voltage, with an annual average metered load of more than 50 kVA-implying installed breaker of greater than 70 A three phase, but limited to a maximum of 800 A – to the groups of consumers listed in item (i) up to and including (xii) in the preamble to the Non-domestic Single-phase: Conventional scale and the groups of domestic consumers with a main circuit-breaker size of more than 80 amperes per phase listed in item (i) up to and including (xii) - excluding bulk domestic complexes and gated domestic communities with a single bulk connection - in the preamble to the Domestic Scale: Single and Three-phase.

The following charges will be payable per month or part of a month:

- |          |   |           |
|----------|---|-----------|
| 21.5.1   | A fixed monthly charge, whether or not electricity is consumed, per metering point  | R7 658,00 |
| 21.5.2   | A demand charge per kVA of half-hourly maximum demand:  | R150,08   |
|          | Provided that the amount payable in respect of the maximum demand in any month will not be less than the greater of:  |           |
| 21.5.2.1 | The prevailing tariff multiplied by 60% of the highest demand recorded on the meter during the preceding twelve months, and   |           |
| 21.5.2.2 | The prevailing tariff multiplied by 60% of the minimum required demand for the tariff scale, in this instance 50 kVA, thus 60% of 50 = 30 kVA where the metered period exceeds the normal 1 month (approximately 30 days)   |           |
|          | Where the metered period exceeds the normal 1 month (approximately 30 days) period, demand will be charged per 30 days period on the actual metered demand where available. Consumers with meters that do not store meter history will be charged at 60% of the highest demand recorded during the preceding twelve months. |           |
| 21.5.3   | An energy charge which include the environmental levy of 5.5 c/kWh for all kWh consumed since the previous meter reading, per kWh   | 99.98c    |

**21.6 LOW VOLTAGE THREE-PHASE DEMAND SCALE:  
TIME OF USE**

Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises situated within and outside the municipal boundaries for electricity supplied or made available at low voltage, with an annual average metered load of more than 50 kVA and load shifting to defined time periods can be arranged, to the groups of consumers listed in item (i) up to and including (xii) - excluding bulk domestic complexes and gated domestic communities with a single bulk connection - in the preamble to the Non-domestic Single-phase: Conventional Scale.

The following charges will be payable per month or part of a month:

- |        |  |           |
|--------|--|-----------|
| 21.6.1 | A fixed monthly charge, whether or not electricity is consumed, per metering point                                   | R7 658,00 |
| 21.6.2 | A demand charge per kVA of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays | R150,00   |

21.6.3	Active energy charge which include the environmental levy of 5.5 c/kWh for all kWh consumed during peak periods since previous meter reading, per kWh, in High demand season (June - August) Low demand season (September - May)	280.98c 115.18c
21.6.4	An active energy charge which include the environmental levy of 5.5 c/kWh for all kWh consumed during standard periods since previous meter reading, per kWh High demand season (June - August) Low demand season (September - May)	110.18c 74.46c
21.6.5	An active energy charge which include the environmental levy of 5.5 c/kWh for all kWh consumed during off-peak periods since previous meter reading, per kWh High demand season (June - August) Low demand season (September - May)	63.13c 52.60c
NOTE		
The defined daily time of use periods throughout the year will be as per the current Eskom Megaflex tariff that may be applicable to the Municipality (Paragraph G) – excluding the application of public holidays. Meters will be set up according to the actual day of the week.		
<b>21.7</b>	<b>11 kV SUPPLY SCALE</b>	
Subject to any additional charges contained in PART II of the Tariff, this scale will apply to premises – excluding bulk domestic complexes – situated within or outside the municipal boundaries where electrical power is supplied at 11 000 V. This scale will only be available for premises with an average metered load of more than 200 kVA.		
The following charges will be payable per month or part of a month:		
21.7.1	A fixed monthly charge, whether or not electricity is consumed, per metering point	R10 940,00
21.7.2	A demand charge per kVA of half-hourly maximum demand:  Provided that the amount payable in respect of the maximum demand in any month will not be less than the greater of:	R149,00
21.7.2.1	The prevailing tariff multiplied by 70% of the highest demand recorded on the meter during the preceding twelve months, and	
21.7.2.2	The prevailing tariff multiplied by 70% of the minimum required demand for the tariff scale, in this instance 200 kVA, thus 70% of 200 = 140 kVA	
21.7.3	Where the metered period exceeds the normal 1 month (approximately 30 days) period, demand will be charged per 30 days period on the actual metered demand.	
21.7.3.1	An energy charge which include the environmental levy of 5.5 c/kWh for all kWh consumed since the previous meter reading, per kWh	94.19c
21.7.3.2	Provided that in the case of a consumer who is not supplied with Electricity under the Off-peak Supply Scale, the said Energy charge will be reduced, if the average daily consumption in any month is equal to or greater than 13 kWh per kVA of the maximum demand in that month, to	93.62c

**21.8 11 kV SUPPLY SCALE: TIME OF USE**

Subject to any additional charges contained in PART II of the tariff, this scale will apply to premises – excluding bulk domestic complexes – situated within or outside the municipal boundaries where electrical power is supplied at 11 000 V and load shifting to defined time periods can be arranged.

The following charges will be payable per month or part of a month:

21.8.1	A fixed monthly charge, whether or not electricity is consumed, per metering point	R10 940,00
21.8.2	A demand charge per kVA of half-hourly maximum demand payable in peak and standard periods on weekdays and Saturdays	R149,00
21.8.3	Active energy charge which include the environmental levy of 5.5 c/kWh consumed during peak periods since the previous meter reading, per kWh, in High demand season (June - August) Low demand season (September – May)	280.00c 107.23c
21.8.4	An active energy charge which includes the environmental levy of 5.5 c/kWh for all kWh consumed in standard periods since previous meter reading, per kWh. High demand season (June - August) Low demand season (September - May)	104.55c 67.95c
21.8.5	An active energy charge which includes the environmental levy of 5.5 c/kWh for all kWh consumed in Off-peak periods since previous meter reading, per kWh. High demand season (June - August) Low demand season (September - May)	55.54c 47.95c

**F. RESELLING TARIFFS TO END USERS**

In accordance to the Electricity Regulations Act, 2006 (Act 4 of 2006) the power and duties of the licensee are -

A licensee may not discriminate between customers or classes of customers regarding access, tariffs, prices and conditions of service, except for objectively justifiable and conditions of a service, except for objectively justifiable and identifiable differences approved by Regulator.

**22.1 DOMESTIC COMPLEXES**

In accordance with Policy Position 43 of the Electricity Pricing Policy No. 1398 -

- (a) Non-licensed traders of electricity shall provide the electricity at terms, tariffs and services not less favourably than that provided by the licensed distributor in the area.

In accordance to the Electricity Regulation Act, 2006 (Act 4 of 2006) the power and duties of the licensee are -

- (b) A licensee may not discriminate between customers or classes of customers regarding access, tariffs, prices and conditions of service, except for objectively justifiable and identifiable differences approved by the Regulator. The following inclining block tariffs are applicable to the reselling of electricity beyond domestic bulk metering point.

For all kWh consumed per metering period or prepaid units purchased per calendar month, per kWh inclusive of 5,5 c/kWh environmental levy:

22.1.1	1-100 kWh	130,32c
22.1.2	101-400 kWh	152,50c
22.1.3	401-650 kWh	166,10c
22.1.4	>650 kWh	179,00c

The reseller cannot charge another fee as this fee is inclusive of the meter reading and fixed charge to individually metered consumers.

**NOTES**

Resellers are not allowed to implement the time of use tariffs scale yet.

Resellers found guilty of charging above the approved tariffs shall be guilty of contravention of the bylaws and NERSA regulations, and a fine of R1 000 000 will be levied against the Reseller/Company/Director irrespective of the amount charged above allowed tariffs.

R1 000 000

**22.2 BUSINESS / NON-DOMESTIC SINGLE- PHASE:  
CONVENTIONAL/ PREPAID**

**22.2.1 Fixed monthly charge**

An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:

Where the rating of the circuit breaker is:

22.2.1.1	20 amperes or less	R326,00
22.2.1.2	More than 20 amperes but not more than 40 amperes	R543,00
22.2.1.3	More than 40 amperes but not more than 60 amperes	R760,00
22.2.1.4	More than 60 amperes but not more than 80 amperes	R1 085,00

22.2.2	Energy charge which include the environmental levy of 5.5 c/kWh	139,20c
--------	---	---------

**22.3 BUSINESS / NON-DOMESTIC THREE-PHASE:  
CONVENTIONAL/PREPAID**

**22.3.1 Fixed monthly charge**

An amount per month per metering point payable, whether or not electricity is consumed, according to the rating of the consumer's incoming circuit breaker in accordance with the following scale:

Where the rating of the circuit breaker is:

22.3.1.1	20 amperes or less	R814,00
22.3.1.2	More than 20 amperes but not more than 40 amperes	R1 628,00
22.3.1.3	More than 40 amperes but not more than 60 amperes	R2 279,00
22.3.1.4	More than 60 amperes but not more than 80 amperes	R3 364,00
22.3.1.5	More than 80 amperes but not more than 100 amperes	R4 015,00
22.3.1.6	More than 100 amperes but not more than 125 amperes	R4 991,00
22.3.1.7	More than 125 amperes but not more than 150 amperes	R5 968,00

22.3.2	Energy charge which include the environmental levy of 5.5 c/kWh	139.20c
<b>BULK DEMAND BUSINESS SCALES RESELLING TARIFFS</b>		
22.4	<b>LOW VOLTAGE DEMAND SCALE (RESELLING TARIFFS)</b>
