Budget Commitments

- For the city to achieve the national targets of halving unemployment and poverty by 2014, we have allocated R10 million towards the establishment of Tshwane Development Agency, and have allocated R33 million for economic growth infrastructure.
- R50 m has been set aside for the development of SMMEs and Cooperatives
- R38 m has been set aside for Ward-based projects

Conclusion

We have done well we can do better and indeed we must do better not to be overcome by the challenge of poverty and unemployment

A higher faster and shared growth is the minimum we must together attain for our prosperity to be sustainable and for the majority of our of our people to a better life

We believe a joint platform of action is the catalyst necessary to take to a higher trajectory the economic growth of our city , our province and of our country and to be more globally competitive

CONCLUSION

Let us hold one another's hand and unleash the potential to leave a legacy of growth that broke the chains of poverty in our city, a legacy for each of our children to thrive in A community full of opportunities that foster their potential to take the growth even to greater heights

Today's summit was not planned to be a networking session nor a talk shop but a meeting of the leadership of various stakeholders in our city to take a joint responsibility and commitment to make a difference .

I thank you for honoring our invite , including national and provincial governments and wish all of us well in these next two days – we have what it takes , lets forge ahead

Thank You
