

# REQUEST TO PUBLICISE THE CITY OF TSHWANE'S INTENTION TO CONSIDER AN UNSOLICITED PROPOSAL BY THE KRATOS CONSORTIUM CONCERNING AN INTENTION TO DRIVE LARGE-SCALE ECONOMIC DEVELOPMENT IN THE STEEL, AGRICULTURAL AND ENERGY SECTORS IN TSHWANE

The City of Tshwane received a proposal from the Kratos Consortium on 27 July 2021, and it was considered by the Executive Committee on 27 August 2021. The proposal seeks to drive industrialisation in Tshwane by means of three different yet interrelated projects. The proposal speaks to the development of an iron ore processing plant, agricultural production facilities for bio-methane and hydrogen gas, and the use of both gas and exhaust emissions to drive turbines to produce clean energy. This will reduce the carbon footprint of Tshwane and allow the City to earn carbon credits, which will be an additional revenue stream for the municipality.

The proposal commits to create 36 000 sustainable jobs over a course of five years. In addition, the combined project will result in a direct foreign and domestic capital investment to the amount of R26 billion. This catalytic development will attract further local investment to the value of R22 billion over the course of five years. The total value of the investment over the five-year period will therefore be R48 billion.

## **Public comment**

Public inputs on the bid are open for 30 days. The proposal can be accessed on the City of Tshwane's website or by sending an email to [citymanager@tshwane.gov.za](mailto:citymanager@tshwane.gov.za).

The closing date for comments is Thursday, 7 October 2021, at 16:00. Comments can be submitted to [citymanager@tshwane.gov.za](mailto:citymanager@tshwane.gov.za).
